SUMMARY

Software developer with 2 years of experience building responsive and dynamic web applications using React.js, TypeScript, and RESTful APIs. Passionate about crafting user-friendly interfaces and improving overall user experience. Currently seeking opportunities to transition into a Full Stack Developer role, where I can expand my backend development skills, contribute to end-to-end solutions, and grow within a supportive and collaborative team environment.

PROFESSIONAL EXPERIENCE

CPF IT Center Co., Ltd. (AXONS) June 2023 - Present

Technologies : React.js, Next.js, Typescript, Material-UI, Tailwind CSS, Java Spring Boot, REST API
Experienced Web Application Developer with a strong background in full-stack development, specializing in React.js, TypeScript, Material-UI, Tailwind CSS, and Java (Spring Boot). Skilled in building scalable, user-friendly applications and enterprise solutions for catalog management and document workflow automation. Proven success in Agile Scrum environments.

Projects :

Product Catalog and Management Web Application

- Developed a responsive and user-friendly web application using React.js and TypeScript for managing product catalogs.
- Integrated RESTful APIs for seamless communication between front-end and back-end systems.
- Implemented features to create, edit, and update product information, connected to backend services via Java Spring Boot APIs.
- Enhanced UI/UX with modern, responsive design using Material-UI and Tailwind CSS.
- Used Git for version control and collaborated within a Scrum team to ensure timely and efficient delivery.

Workflow Management System

- Built a configurable workflow management platform to support operations across departments and sub-units.
- Developed the front-end using React.js and TypeScript, ensuring a dynamic and intuitive user experience.
- Created backend services with Java Spring Boot, and implemented Node.js APIs for server-side tasks such as file uploads.
- Supported features like approval flow customization, role-based assignments, and workflow tracking.

Both project above used Git for version control and collaborated within a Scrum team to ensure timely and efficient delivery.

Full stack developer (Internship)

August 2022 - November 2022

Technologies: Vue.js, Python

Experienced Vue.js Developer with a solid background in building and improving in-house software solutions. Proficient in developing new features, optimizing performance, and troubleshooting to ensure smooth functionality. Skilled in agile methodologies, collaborating within Scrum teams to deliver high-quality, business-aligned solutions. Strong expertise in Vue.js (frontend) and Python (backend).

EDUCATION

Bachelor of Information Technology

King Mongkut's Institute of Technology Ladkrabang

- Specialized in web development
